ALAN EMERY ▶ Alan grew up surfing the famed right handers of the Lennox Point and the surrounding pristine waves of the Northern NSW area, Australia.

Any spare time that Al had out of the water as a grommet was spent learning all aspects of shaping, design and the production process within the Surfboard Industry. This coupled with the vast amount of Australasian Pro Junior, WQS and CT surfers riding Al's boards, has helped Alan refine his shapes, contours and rockers to an extremely high level producing boards that are suitable for all levels of surfing and wave types.
